

Town Planning Department Announces Concept Plans for Russ Savatt Park

Councilman Ed Wehrheim announced new conceptual plans for Russ Savatt Park at a recent KP Chamber of Commerce Meeting. The plans were created by the Smithtown Planning Department. The primary focus of the plan is to attract people to Main Street. The plan is to keep maintenance costs low and to inspire other renovations in the area. The park would be closed off to traffic and would move parking spaces to the rear, behind a buffer. A kiosk would be added that would highlight Kings Park history.

Planning Department Announces New Plan For Crosswalks on Main Street

The Planning Department also announced plans to renovate crosswalks along Main Street. The new crosswalks would direct drivers to the State “Yield to Pedestrian” law. Any crosswalk renovation would need state approval. This falls in line with one of the KPCA recommendations detailed in our letter to town council members and the KP Chamber of Commerce.
